Extra Heavy Duty Crusher

Gold Crusher : Jaw crushers are designed & manufactured by K.V. metals with advanced modern technology on highly sophisticated machine & equipment to produce maximum output of materials with minimum power consumption & maintenance.

Salient Features of Jaw Crushers

<p>Application : Gold Jaw crushers are ideally suited for crushing of Hard Granite Stone, Black Trap Rock, River Gravel Limestone, Coal etc.</p> <p>Body : Body is made from best quality tested M.S. plate welded fabricated construction.</p> <p>Crank Shaft : Crank shaft is made of alloy steel En9, En19-hardened - tempered and precision machined to fit heavy duty spherical roller bearings (Ensure proper greasing daily).</p> <p>Swinging Lever : The swinging lever (Pitman) is made of steel casting with high tensile strength and is precision machined for smooth crushing stone.</p> <p>Jaw Plates & Side Plates : The jaw plates are made of high tensile manganese steel of Grade-3. One jaw is fixed and the other jaw is fitted on swinging lever. The side plates are of close fitting type which prevents wear & tear to the main body.</p> <p>Lubrication : Roller grease is used as lubricant in bearings to ensure smooth working. Grease moves outwards from bearings & grease nipples are fitted at appropriate places.</p>	<p>Antifricion : The crushers are specially fitted in heavy duty double roller bearings which ensures smooth operation. The bearings are fitted on both sides of cranks shaft and two in swinging lever.</p> <p>Spring Rod : Well designed compression spring and spring rod provide cushioning to the toggle mechanism, eliminates knocks and reduces the resultant wear & tear.</p> <p>Fly Wheels : Two heavy cast iron fly wheels are fitted and balanced to ensure smooth ready running for adjusting metal crushing size.</p> <p>Seating Plates : Toggle Block and Wedge Block System for Setting.</p> <p>Warranty : Jaw crushers are warranted against manufacturing defects. However, the warranty does not cover breakdowns under normal wear & tear or due to misuse/mistake made by plant operator.</p>

Vibrating and Reciprocating Feeders

Most Versatile and Reliable

(Available with requirement of Ton/Hr.)

Salient Features

Increase Productivity | Sorts out wastages and fines | Increases efficiency of machine at primary or secondary stage crushers | Continuous feeding of material
